Dear Mr. Bartlet:

Confirming our telephone conversation of November 18, 1982, I would like to advise you that further research indicates that the notification of hazardous waste site submitted pursuant to §103(c) of the Comprehensive Environmental Response, Compensation, and Liability Act of 1980 on behalf of my client, Penn Central Corporation, with respect to the site located at ~~2810 East 124th Street~~ or 12400 South Cottage Grove, Chicago, Illinois was incorrect in one respect. I would like to provide you with the information necessary for its amendment.

I am enclosing a xerox of the original form which was filed for your reference. Under Section E, as discussed on the attached sheet, a statement was made that 300,000 gallons were removed from the grain elevator in the summer of 1980 by Chemical Waste Management of Illinois. Further investigation has shown that two removal operations were conducted. Three hundred thousand gallons were removed in the initial operation. However, a second operation later removed an additional 100,000 gallons. As a result, Section E should be amended to reflect that a total of 400,000 gallons were removed from the grain elevator in the summer of 1980 by Chemical Waste Management of Illinois.

Should you wish this amendment to be in a more formal form, I would be happy to oblige. If you have any questions on this matter, please do not hesitate to contact me.

Very truly yours,

WILDMAN, HARROLD, ALLEN & DIXON
